ABOUT ME

A Computer Science Engineering student with strong foundations in programming and software development. Passionate about building real-world applications and eager to contribute to impactful solutions in a collaborative environment. Actively seeking opportunities to learn, grow, and contribute to impactful software solutions.

EDUCATION

Bachelor of Engineering-Computer Science Engineering (2023-2027)
Government college of engineering, Erode
CGPA: 8.7/10 (upto 5th semester)

SKILLS SUMMARY

Languages : Java, C
Frontend Technologies : HTML5, CSS3, JavaScript, React
Backend : Spring Boot, RESTful APIs
Databases : MySQL, MongoDB
Tools & Platforms : Git, GitHub, VS Code, Postman

INTERNSHIP EXPERIENCE

Full Stack Developer Intern | Beetalogic Software Solutions | June 2026

Contributed to the development of a Legal Case Management System using frontend and backend technologies. Implemented database-driven features to improve case management and workflow efficiency. Applied debugging, testing, and software development best practices to deliver reliable solutions.

PROJECTS

EKart – Car Marketplace Web Application | Dec 2025

[Github Link](#)

Technologies: Java, Spring Boot, React, REST APIs, MongoDB
Developed a full-stack car marketplace platform that enables users to buy and sell new and used vehicles efficiently. Implemented secure user authentication, session management, and role-based access control to ensure a seamless and secure user experience. Integrated real-time chat functionality and REST APIs to enhance communication, data exchange, and overall platform usability.

Smart Class Advisor Management System | Feb 2026

[Github Link](#)

Technologies: Java, Spring Boot, React, MySQL
Developed a role-based Class Advisor Management System for advisors, faculty, and students. Implemented subject allocation, secure mark management, and access-controlled academic workflows. Integrated GPA calculation and performance analytics with interactive visualizations.

Coffee Website – Frontend Application | July 2025

Technologies: HTML, CSS, JavaScript
Developed a responsive coffee shop website with a modern and visually appealing user interface, ensuring a seamless user experience across different devices. Implemented interactive features and optimized website performance to enhance usability, engagement, and overall user satisfaction.

CERTIFICATES

- Cloud Computing – NPTEL
- Java Programming – Infosys Springboard
- C Programming – Coursera
